**Foundation date of the Center:** July 1, 2019

Digital Technologies Education Center at the Tashkent University of Information Technologies named after Muhammad al-Khwarizmi was organized on the basis of Order No. 366 of the Ministry for Development of Information Technologies and Communications of the Republic of Uzbekistan "On the Organization of the Digital Technologies Education Center at the Tashkent University of Information Technologies named after Muhammad al-Khwarizmi" dated 10 June 2019.

The third of the five main initiatives of the President of the Republic of Uzbekistan is aimed at teaching the public and youth the basics of computer technology, programming and graphics, as well as attracting young people to e-sports.

Tashkent University of Information Technologies named after Mukhammad al-Khwarizmi is a basic higher educational institution providing personnel in the field of information and communication technologies with the organization of branches of the Digital Technologies Education Center.

**The main objectives of the Center are:**

- Teaching young people the basics of computer programming, computer graphics, robotics, project management technology and the basics of entrepreneurship in e-commerce sphere;
- Increasing youth interest in e-sports and computer games, attracting them to this area and preparing them to international competitions;
- Broad involvement of youth in the development of software, educational programs and web resources, computer and mobile games in accordance with national values;
- organization of advanced training courses in the field of information and communication technologies for specialists of state and economic management bodies.
