

We invite you to submit your **proposal for the supply of equipment for the mechatronics and robotics LAB of the Tashkent University of Information Technologies** (see the technical specifications given in Annex 2 of the main document) within the framework of the project **“Modernization of Mechatronics and Robotics for Bachelor degree in Uzbekistan through Innovative Ideas and Digital Technology”** – (MechaUz), funded by the **European Union ERASMUS+ program**.

About the project. “Modernization of Mechatronics and Robotics for Bachelor degree in Uzbekistan through Innovative Ideas and Digital Technology” – (MechaUz) (project number: **609564-EPP-1-2019-1-EL-EPPKA2-CBHE-JP (2019-2121 / 001 - 001)**) – is a three-year international project funded by the Erasmus+ program for capacity building in higher education in the European Union (EU), established in 2019. The aim of the project is to support the development and modernization of the Mechatronics and Robotics (MechaUz) Curriculum. The project will create an environment for the training of highly qualified specialists in accordance with the labor market and in accordance with the best practices of the EU and the Bologna Process.
